OUR IDENTITY, OUR VALUES

GOLD NOTE
il suono italiano

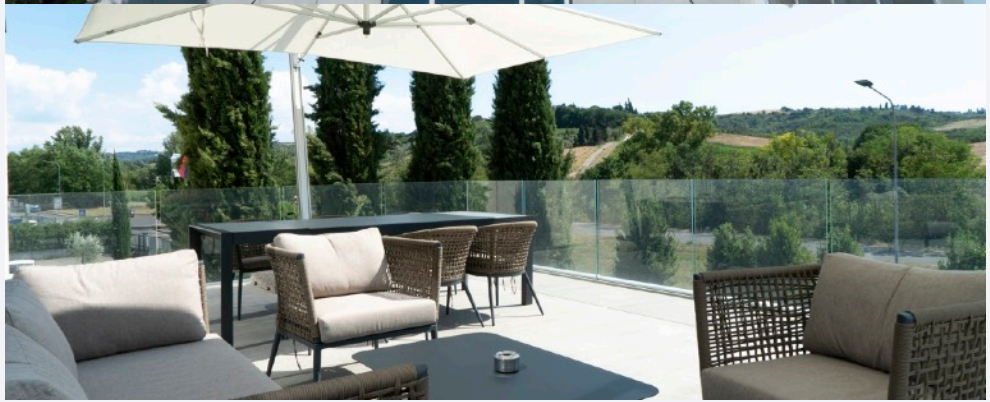
Gold Note is located in the center of Tuscany, near Firenze. Surrounded by nature and wonderful hills, the headquarters perfectly represent the brand's personality and values.

Authentically made in Italy: an Italian design, Italian suppliers, in-house assembly.

Deep knowledge of the High-End industry.

Research and innovation driven.

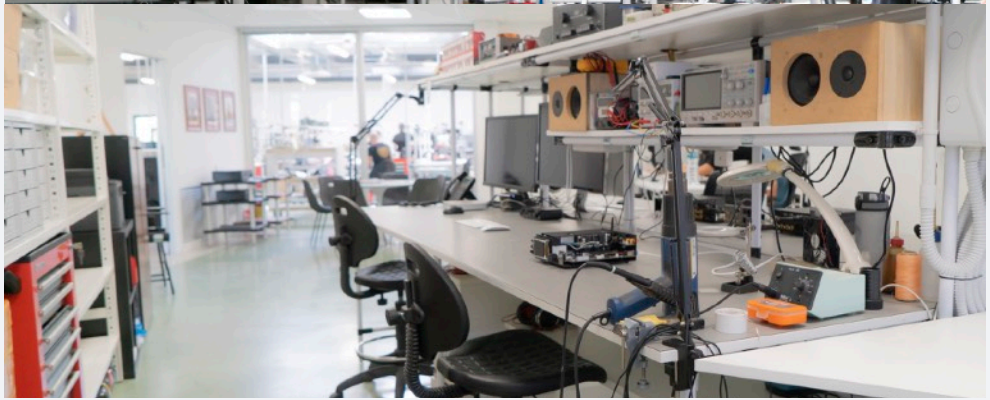
Efficiency and effectiveness according to a continuous improvement philosophy.



THE FACTORY: LEAN MANUFACTURING PHILOSOPHY

GOLD NOTE
il suono italiano

- 2000 sqm to control and perfectly organize the entire working process.
- Each engineer and technician assembles specific products from start to finish.
- The products are tested individually one by one to ensure better quality control.
- More than 4000 components are organized by product line, to find them easily when needed.
- All the products are visually inspected before being packed and shipped.



HIGH ENERGY EFFICIENCY
ZERO CLIMATE IMPACT

GOLD NOTE
il suono italiano

| Gold Note leads the way towards sustainability in the High-End audio industry launching an energy efficiency project to reduce our impact on the environment.

| We have already converted over 2000 square meters of existing buildings, moving towards higher energy efficiency and a lower carbon footprint.

| Our ambitious goal is to accomplish zero climate impact, complete autonomy in terms of energy production and carbon free.

100% MADE IN ITALY

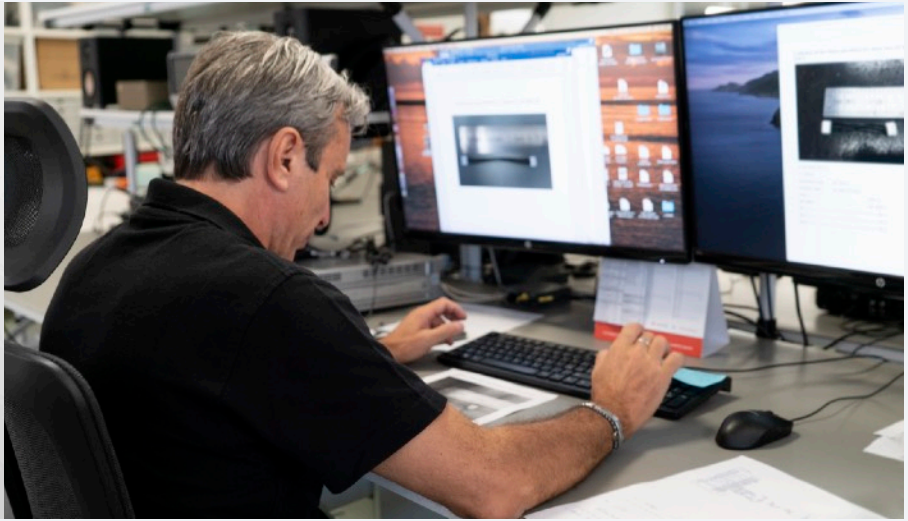
Italian supply chain: Gold Note is the only Italian audio company able to provide complete direct control over the working processes, and every single part of products is handmade in Italy.

High-quality Italian materials: Walnut hardwood, ultra-solid aluminum, electronic components come exclusively from selected Italian suppliers.

EXPERTISE AND INNOVATION HAPPILY COEXIST

GOLD NOTE
il suono italiano

Gold Note merges a deep knowledge in the High-End audio field with continued investment in research and development, combining Italian heritage with the most technologically advanced, user-friendly solutions.



SYSTEMS THINKING DESIGN

GOLD NOTE
il suono italiano

Our philosophy is best represented by the concept of systems thinking, a comprehensive approach that focuses on the sum of the parts as well as on the individual constituents. Such philosophy can be applied to design single products, as well as the entire audio chain, as the final performance is a product of all stages involved.

PRODUCT-TIER: A COMPLETE LINE FOR EVERY MARKET SEGMENT
