

Furutech's Alpha Nano-Ag-Au's Superior Conductivity

Alpha Nano-Ag-Au, featuring our new, finely-tuned gold and silver Nano Liquid. Nano Liquid is a highly effective transmission enhancer, carefully designed to further heighten the performance of our already legendary Alpha-OFC conductors with their patented two-step cryogenic and de-magnetization process for superior signal transfer.

Original wire surface image – Only one contact point

Alpha Nano-Ag-Au wire surface image – Many contact points
